RESEARCH INTERESTS

Substantive: Household Welfare, Poverty & Inequality, Labor Markets, Food Systems & Nutrition, Policy Analysis

Methodological: Computational Economics, Bayesian Econometrics, Machine Learning in Economics, Microeconometrics

EDUCATION

Master of Philosophy (MPhil) in Economics

2024 - 2026 (Expected)

University of Cape Coast (UCC), Cape Coast, Ghana

- Specializations: Microeconomics, Household Welfare, Computational Economics

Bachelor of Arts (Social Sciences) - Economics

Aug 2020 - Aug 2024

University of Cape Coast (UCC), Cape Coast, Ghana

- Dean's Award for Academic Excellence, Faculty of Social Sciences (2022/23, 2023/24)
- Dean's Award for Academic Excellence, School of Economics (2023/24)
- Relevant coursework: Microeconomics, Macroeconomics, Mathematical Economics, Econometrics, Statistics & Probability, Environmental Economics, International Trade & Finance

RESEARCH & PROFESSIONAL EXPERIENCE

Research Assistant

Aug 2025 - Present

School of Economics, University of Cape Coast, Cape Coast, Ghana

- Collect, clean, and manage large economic and social datasets for ongoing research projects
- Conduct data analysis and econometric modelling using R, Python, and Stata, including panel data and Bayesian multilevel models (brms, Stan, PyMC)
- Conduct systematic literature reviews and synthesize findings to support faculty research
- Provide general research support across active projects in development and applied microeconomics

Teaching Assistant

Aug 2024 - Aug 2025

Department of Economics, University of Cape Coast, Cape Coast, Ghana

- Delivered tutorials and academic support to undergraduate economics students
- Assisted senior faculty members in conducting and coordinating research activities
- Assisted in marking, grading, and examination supervision

PUBLICATIONS & WORKING PAPERS

Under Review

- Asmah, E. E., Opoku, A., & Mbiba, C. (2025). Assessing the Impact of Birth Spacing on Undernutrition Among Children Under Five in Ghana: Insights from Machine Learning Algorithms. Manuscript under review, Department of Economics, University of Cape Coast.
- Asmah, E. E., Andoh, F. K., Opoku, A., Mbiba, C., & Froko, J. O. (2025). Forecasting Public Debt in Africa Using Machine Learning: Evidence for Fiscal Sustainability and Policy Planning. Manuscript under review, Department of Economics, University of Cape Coast.

TECHNICAL SKILLS & COMPETENCIES

Programming & Software: R (tidyverse, brms, haven) | Python (Pandas, NumPy, Scikit-learn, PyMC, Matplotlib, Seaborn) | Stata | SQL | Git | LaTeX/Overleaf | Tableau | IBM Watson Studio

Econometrics & Statistics: Microeconometrics | Cross-sectional & Panel Data Analysis | Causal Inference | Bayesian Methods (MCMC, brms, PyMC, Stan, JAGS) | Regression & Classification Models

Machine Learning & Computational Methods: Supervised & Unsupervised Learning | Algorithmic Economics | Predictive Modelling | Web Scraping

Data & Productivity Tools: Microsoft Office Suite (Excel, Word, PowerPoint) | Relational Databases | Data Mining | Data Visualization

CERTIFICATIONS

IBM Data Science Professional Certificate*Dec 2022 - May 2023**Coursera, offered by IBM*

- Completed a 10-course professional programme covering data analysis, machine learning, and visualization
- Built a capstone project involving real-world predictive modelling using Python and SQL

LANGUAGES

English (Fluent, Academic & Professional) | Akan - Asante & Akuampem Twi (Fluent) | Konkomba (Native)

COMMUNITY SERVICE & VOLUNTEERING

- Conducted a public education campaign on the health impacts of illegal mining (galamsey) targeting market women at Konkomba Yam Market
- Organized Python programming and data analysis tutorials for undergraduate students at UCC
- Delivered free economics and statistics tutorials for undergraduate social science students at UCC
- Mentored incoming undergraduate students at UCC, guiding academic adjustment and goal-setting
- Led an environmental campaign against marine debris and ocean pollution
